PRODUCER

Shilda Winery produces 600,000 bottles annually, with plans to expand to 2 million. Located in Shilda, the heart of Kakheti, our vineyards lie over 400 meters above sea level, nestled under the Caucasus Mountains. The alluvial soils, continental climate, and valleys descending from the slopes create ideal conditions for viticulture. Our diverse wine range reflects Georgia's rich winemaking traditions, showcasing the unique character of the land and native grape varieties. Every bottle embodies our commitment to quality and passion for sharing the essence of Georgian wine with the world.

Continental climate

VINIFICATION

Upon arrival, grape was placed on a sorting table and underwent selection process, once again. The bunches were destemmed and only 70% of the berries was crushed. Then the mass was transferred to Qvevris. With the aid of Qvevri cooling system, fermentation process and cap management were performed at low temperature. The goal was to preserve compounds that contribute to wine aroma and flavor.

VINIFICATION

Upon arrival, grapes underwent destemming process and the cold soak for five days. After it was transferred into Qvevris, where fermentation was conducted at a temperature ranging between 23°-25° C. Fermentation process was completed manually to minimize intervention and contact with grape seeds, resulting in soft extraction of tannin and color. Wine was aged in Qvevri for 6 months.
